Subject Subject: Exciting Evolution and Expansion of ISA+21!

ISA INSPIRER

We are excited to present ISA+21's updated logo! The current logo has served us well, however we have decided it is time to update our 'livery' to stay relevant for the next generation! Also, as ISA+21 is becoming more and more of a media and industry resource for information, we opted for a logo that we felt portrays: "Woman Airline Pilot"

This updated logo embodies our culture of camaraderie, as does our mission statement:

The International Society of Women Airline Pilots is the global voice to *Inspire, Support,* and *Advocate* for female airline pilots

In the same spirit of forward progression, we have a new email system that allows us to not only receive emails sent to these addresses, but we can also *send* emails under the same address (rather than sending from our personal emails, which was a limitation of the previous system.) This will eliminate confusion as board members change on a rotating basis, and will also give a professional image when we send outgoing emails for industry and media communications.

The ISA+21 Board of Directors can now be reached at the new email addresses listed below:
